HINDRANDUM FOR THE RECORD

SUBJECT: Minutes of Special Group Meeting, 1 February 1962

PRESENT: General Taylor, Mr. Johnson, Mr. Gilpatric and Mr. Helms

ILLEGIB

1. Defense Paripheral Plichte

The February schedule was noted. It was agreed that it will not be necessary in the future to ask the Group for specific approval for Arctic flights, nor for those employing 5-2s. These will be included in the book of selected missions and any number will have an opportunity to register objection to any flight. The absence of objection will be considered as tacit approval.

ILLEGIB 25X1 It was noted that the missions in the presentation which involve staging through _______, cannot be mounted until approval has been obtained from

Colonel Stankley reported in detail on the results of the VALERIE/ARCHER mission.

2. Monthly Schedule of Overflights

The CIA schedule was noted. It was pointed out that the Cube missions are being stepped up from one flight a month to two; that while the North Viet-Nam operation shows only one sortie, this will actually be two during February since the planned mission for January has slipped because of weather; and that, although the schedule indicates two TACKLE missions, it is understood that the second one will be subject to specific consideration and approval by the Special Group.

Mr. Johnson said that he had now been briefed on the frequency of flights in the Morth Viet-Men area and was satisfied that at present this poses no real problem.
